**STATEMENT OF SUBSTANCE OF INTERVIEW**

Applicant wishes to express his appreciation to Examiner Smith for the interview of November 10, 2004. During the interview, Applicant's representative, Attorney William Boshnick, spoke to the Examiner concerning the rejected claims of the present invention. Specifically, Attorney Boshnick showed a model of an embodiment of the present claimed invention as ~~well as~~ a model similar to that disclosed in the applied AOKI reference, and demonstrated how this reference failed to teach or suggest the invention as claimed in rejected claims 1-5. The Examiner agreed that the prior art of record fails to teach or suggest at least at least the feature wherein each of the opposite ends of the at least one linear guide groove are open such that the support frame is movable to extend from either of the sides of the ring portion, as claimed in independent claim 1. However, the Examiner indicated that he would conduct an updated search before making a final decision on allowance.
